

Delphia 40

Outstanding Quality Hardware and Fittings

Isotherm Toploading Fridge

A 92 Ltr build-in box with stainless steel liner & 50mm of high quality polyurethane insulation, plastic bottom section & 3 wire baskets. Interior light. The most efficient refrigerator for Australia.

- Compressor mounted below in locker with self pumping sea water cooled condensing system for even higher efficiency.
- Lower power consumption
- Silent – no fans or pumps
- Heat removed by water means cooler inside
- No extra holes in hull required

Selden Mast & Hardware

All rigs are custom made, through every calculation and detail, for each yacht. Every Selden rig is carefully thought out, down to the last detail. All the way from the materials and functions of the different parts of the rig to dimensioning the right rig for each individual yacht. Each individual component contributes to the performance of the whole rig. That is the Selden way- experienced yachtsmen behind every aspect of design, product development and production.

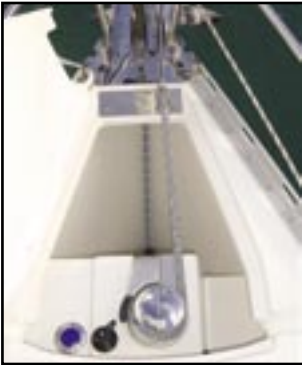

Lewmar Winches, Clutches & Hatches

A product name that is also standard on all our D40 yachts. The Lewmar product is known and respected by yacht builders and owners the world world over. The D40 has all Lewmar winches, travellers, hatches and rope clutches as standard fittings.

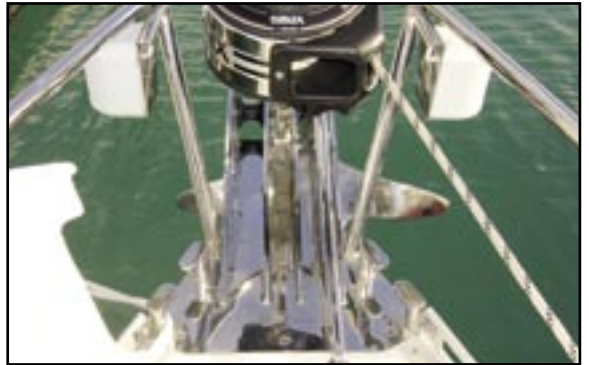

Delphia 40

Outstanding Quality Hardware and Fittings

Quick Windless

A leading name in the nautical world producing top quality products. The D40 is fitted with a 1,000W Windless and 40 mtrs of 8mm galvanised chain and 17Kg stainless steel claw anchor. The D40 is fitted with dual bow rollers of high quality stainless steel to accommodate the mooring line pickup.

Smev Double sink w/- flick mixer and sea water tap

High quality stainless steel double bowl sink with two teak cutting boards that fit snugly over each sink for added food preparation area. There are holders fitted onto the wall beside sink for stowage of the boards when sink is in use. To save on using the fresh water in storage tanks, a salt water tap is fitted over the end sink, operated by a foot pump. The flickmixer ensures the water temperature is measured correctly to avoid wastage of hot water. The

Smev Stove -AGA approval No. 5158
